Internal Examiner - I **Internal Examiner - II**

ABSTRACT

CanvasCraft is a web-based art market management platform designed to connect customers, artists, and administrators through a shared marketplace. It provides customers with a convenient way to discover and view artworks, review information such as descriptions and prices, and place orders directly with artists. By bringing artwork listings and ordering into one platform, CanvasCraft makes it easier for customers to explore available creations and engage with their creators.

The platform also supports users who want to sell their work. Registered users can submit artwork and apply for artist status, after which an administrator reviews the application and submitted materials. Once approved, the user gains access to an artist dashboard for managing a profile, maintaining artwork listings, showcasing creations, and viewing and fulfilling orders.

Administrators oversee key marketplace operations, including user management, artist verification, artwork moderation, and order monitoring. These capabilities help maintain organized listings and support reliable interactions among marketplace participants. CanvasCraft brings artwork discovery, artist onboarding, and order management together in a single system, providing a structured environment for managing online art commerce.

ACKNOWLEDGEMENT

First and foremost, we thank the **LORD ALMIGHTY** for his abundant blessings that is showered upon our past, present and future successful endeavors.

We extend our sincere gratitude to our college management and Principal **Dr. S. Arivazhagan, M.E., Ph.D.,** for providing sufficient working environment such as systems and library facilities. We also thank him very much for providing us with adequate lab facilities, which enable us to complete our mini-project.

We would like to extend our heartfelt gratitude to **Dr. J. Raja Sekar, M.E., Ph.D.,** Senior Professor and Head, Department of Computer Science and Engineering, Mepco Schlenk Engineering College for giving me the golden opportunity to undertake a mini-project of this nature and for his most valuable guidance given at every phase of our work.

We would also like to extend our gratitude to **Dr. T. Manonmani, M.E., Ph.D.,** Associate Professor, and **Dr. K. Muthamil Sudar, M.E., Ph.D.,** Assistant Professor (Sr. Grade), Department of Computer Science and Engineering, for being our mini-project in-charges and directing us throughout our project.

We would also like to extend our gratitude and sincere thanks to **Dr. G. Nirmala, M.E., Ph.D.,** Assistant Professor (Sr. Grade), Department of Computer Science and Engineering, Mepco Schlenk Engineering College for being our Project Mentor. She put her valuable experience and expertise in directing, suggesting and supporting us throughout the mini-project to bring out the best.

Our sincere thanks to our revered **faculty members and lab technicians** for their help over this mini-project work.

Last but not least, we extend our indebtedness towards out beloved family and our friends for their support which made the mini-project a successful one.
